

ENDEAVOR MINE

On behalf of **CSA, Endeavor & Peak Gold Mine's** we would like to take this opportunity to extend an invitation to mines rescue competitors, sponsors, supporters and visitors to the ***"New South Wales Mine Rescue Challenge – 2004"***.

**17<sup>th</sup> – 19<sup>th</sup> September 2004, Cobar, NSW, Australia**

Invitations to this challenge will go to metalliferous and coal underground and open cut teams from across New South Wales, with visitors welcome from all other states and territories within Australia. The challenge will encourage a sense of common purpose, that of "assisting and teaching our workmates". This will be accomplished by learning from others, recognising strengths and identifying areas in which we can improve.

Our vision with the support of the NSW Minerals Council is to use this challenge as an opportunity for the community to acknowledge the positive and practical ways the Mining Industry supports its people and the wider community.

The challenge will:

- Teach and encourage Mine's Rescue Members skills through realistic and practical scenarios.
- Provide opportunities for self-reflection and improvement through coaching and observing others.
- Better equip Mine's Rescue Members for their roles in the future.
- Share ideas and expertise between different organisations, working in the mining industry.

CSA, Endeavor and Peak Gold Mines are committed to maintaining strong and responsive rescue teams as an integral part of our business. We value our place within the local community and are proud of our positive contribution with events such as this.

On behalf of CSA, Endeavor & Peak Gold Mines we wish all competitors and those assisting in the 2004 NSW Mines Rescue Challenge, the very best for a safe and successful challenge.

Please register your intention to attend this challenge no later than the 23<sup>rd</sup> of April by emailing [NSWMineRescueChallenge@wheatonriver.com.au](mailto:NSWMineRescueChallenge@wheatonriver.com.au)
